A bounty of tweive dollars will be paid to each recruit enlisted for the artillery or infantry arm.

Besides the monthly pay, as above stated, one ration per day is allowed every solder, which is amply sufficient for his subsistence; also a large supply of comfortable and genticel clothing. Good quarters and fuse are at all times furnished; and every attention will be paid to making those men who may enlist, and are determined to serve their country in good faith, comfortable and contented with their situation. The best medical attendance is always provided for the sick soldier; and no deduction of pay is made during the period he is unable to perform his day. Should the soldier be-disabled in the line of his day, the laws provide a pension for him.

Also 160 acres of best land in any of the States in which the United States have land. Provided he obtains by his good conduct an honorable discharge, or \$100 in treasury scrip to bear interest, if he prefers it to the land.

By the above it is seen that the pay and allowances are respectable, and that, with prudence and economy, the monthly pay of the soldier may be laid up—as everything requisite for his comfort and convenience is farmished by the government, including his sugar and coffee. The prudent soldier, therefore, may readily save from \$420 to \$1020 during his enlistment, and at the expiration of the term he can, if he chooses, settle his farm in any of the western States, and there establish himself comfortably, on his own land, for the rest of his life.

The sum of two dollars will be paid to any citizen, noncommissioned officer or soldier, who shall bring to the renderson land, for the rest of his life.
